

The ongoing COVID-19 pandemic has caused global disruption to the visitor economy. The 2020 economic impact results show a significant drop in volume of trips and related expenditure, compared to 2019. To reflect the impact of the pandemic, the results for 2020 are based on a range of administrative sources and modelling work. The results also consider the impact of interventions such as the 'Eat Out to Help Out' scheme, the 'We're Good to Go' assurance scheme and the Job Retention Scheme, known as furlough.
